Life as a Farmer: Learning Social Media

The life of a farmer is a daily adventure that many of us never get to experience. Your story is as unique as the crops you sow, the cattle you raise, the fences you mend, and the triumphs and tragedies that you have experienced. WCTE thanks you for being willing to share your life with our viewers. We promise to support you in this endeavor with equipment (Flip Camera), a class, and resources that are available to us. (TTU Media lab, contact person, online video tutorials, trouble shooting assistance.)
